Professional Summary

Pursuing a Computer Science degree from K.L.N. College of Engineering, passionate about creating dynamic **websites and mobile apps**. Interested in building scalable applications and continuously improving technical knowledge in modern technologies, and actively working to improve technical abilities through hands-on projects.

Education

Bachelor of Engineering in Computer Science

K.L.N College of Engineering, **CGPA**(Upto 6th Semester): **8.79 / 10**

2023-2027

School

Oxford Matriculation Higher Secondary School **82.5%**

Skills

- **Programming:** Python, C, Java
 - **Technical Skills:** HTML, CSS, JavaScript, React.js, Node.js & Express.js, MySQL, Git, MongoDB, Microsoft Office Tools
 - **Soft Skills:** Leadership, Teamwork, Problem-Solving, Logical Thinking
-

Experience

K.L.N. Innovation & Research Park (KLN.IRP)

Jan 2026 – Dec 2026

K.L.N College of Engineering, In-house Internship, Role: **IRP Aspirant**

Projects

1. Hospireo – Healthcare Appointment Platform:

- HTML, CSS, JavaScript, Node.js, Express.js, MongoDB
- Developed a healthcare web platform to help users locate nearby hospitals and doctors.
- Designed an easy-to-use interface for hospital departments and doctor listings.
- Implemented a digital appointment booking system to simplify patient scheduling.

2. e-MBook – Digital Measurement Book System for Rural Development & Panchayat Raj

- Tech Stack: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB
- Developed a full-stack web application to digitize the Measurement Book (M.Book) process for the Rural Development & Panchayat Raj Department.
- Implemented role-based authentication and approval workflows for engineering officials, including CE, SE, EE, AEE, AE, and JE.
- Built modules for project management, measurement entry, tender management, material rate tracking, and automated report generation.
- Integrated MongoDB with Express.js APIs to enable secure data management and real-time project monitoring through responsive dashboards.

3. HSDE — Hyperlocal Smart Donation Engine

- Tech Stack: React Native CLI, TypeScript, FastAPI, MongoDB Atlas, Firebase, YOLOv11n, EasyOCR
 - Built a hyperlocal donation platform connecting **donors, NGOs, and volunteers** with end-to-end request, offer, communication, and fulfillment workflows.
 - Implemented **Firebase Authentication, Google Sign-In, RBAC, NGO volunteer management, and MongoDB-backed donation lifecycle tracking.**
-

-
- Integrated **YOLOv11n + EasyOCR** for AI-assisted donation evidence analysis using object detection, OCR, category rules, quantity evidence, and explainable scoring.
 - Developed **private media handling, donor-NGO chat, volunteer assignment, pickup/delivery tracking, and backend validation** using React Native CLI and FastAPI.

4. Museart – AI Powered Artifact Description System:

- Technologies: Python, Gemini AI, Gradio, gTTS
- Developed a system that generates historical descriptions for museum artifacts using AI.
- Integrated image analysis with Gemini AI and converted results into audio narration.
- Designed an interactive web interface for image upload and artifact exploration.

Certificate

- Full Stack Development – Novitech (Jan - Feb 2026)
- Privacy and Security in Online Social Media – Nptel (Jan-Apr 2025)
- Cloud Computing – Nptel (Jul – Oct 2025)
- Ethical Hacking – Nptel (Jul - Oct 2025)
- Front-End Development Course – AWLRI, Red Rivers Labs(2025)
- Full Stack Web Development Internship – VINSUP (2025)
- Mern Stack Development Internship – ELYSIUM (2026)
- Generative AI Project Bootcamp – Raam Techlink Private Limited (9th Aug 2025)
- Front-End Development Internship Certificate – Cognifyz Technologies (July 2025 – Aug 2025)

Achievements

- Presented a research paper titled "Digital Twin Technology for Sustainable Smart Systems: A Data-Driven Framework for Engineering Optimization" at the International Conference on Sustainable Development in Engineering and Technology (ICSDET'26) conducted by K.L.N. College of Engineering.
 - Coordinated Techgenio and Technozare Symposium (College Events)
 - Smart India Hackathon – College Level (Certified)
 - Led a team as Team Lead for the Hospireo healthcare project.
 - Selected for Nimirndhu Nil Hackathon 2025-26 Ideation Camp (Level 2), organized by EDII Tamil Nadu.
 - Consolation Prize – Scientific Model Contest (TECHNOZARE 2K24) National Science Day 2024, K.L.N. College of Engineering for the project "Anti-Sleep Alarm for Driver (Accident Prevention)".
 - Presented a technical paper on "Quantum Computing: The Future of Computational Technology", demonstrating research and presentation skills.
 - Participated in inter-college symposiums including SIT-GEN ERA 2K26 and MEPCO 2K25, enhancing technical and problem-solving skills.
-
